No. 854 of 1903.

FROM

C. W. WADDINGTON Esq., M. A.,

CHAIRMAN,

Municipal Committee, Ajmer.

TO

THE DISTRICT MAGISTRATE,

AJMER.

Dated the 12th August, 1903.

SIR,

I have the honor to submit herewith the Annual Administration Report of the Ajmer Municipality for the year ending the 31st March 1903, together with statements in the prescribed forms.

2. The Municipal boundaries remain unchanged.

Boundaries.

3. The Committee for the year consisted of the following members:—

Constitution of Committee

Ward No. I, City, including Inderkot :—

1. Seth Guman Mal Lodha.
2. „ Nemi Chand
3. „ Radha Kishen
4. K. B. Dr. Sheikh Mohomed Ilahi Bakhsh.
5. Munshi Debi Pershad, B. A.
6. „ Har Bilas Sarda, B. A. (a)
7. „ Ram Bilas Sarda. (b)
8. „ Mohomed Allanur Khan.
9. „ Mithan Lal, Vakil.
10. Syed Hafiz Ghulam Mohamed.

Ward No. II, Kaisar Ganj, including Cavendishpura :—

1. Mr. Abdulkarim Khan, Bar-at-Law.
2. Pandit Bansi-Dhar Sharma, Vakil.

Ward No. III, Suburban :—

1. E. F. Harris, Esq.
2. J. Collins, Esq.
3. Pandit Fateh Chand Mehta, B.A., LL.B. (Cantab.), Bar-at-Law.

(a) Resigned vide your endorsement No 3094, dated the 24th October 1902.

(b) Elected vide your endorsement No 635, dated the 24th February 1903.

Ward No. IV, Railway :—

1. F. Goodwin, Esq.
2. J. M. Mushet, Esq.
3. Pandit Chandrika, Prasada.

Nominated Members :—

1. The Civil Surgeon, Ajmer
2. A. D. Rollo, Esq.
3. Munshi Wazir Bakhsh.
4. Babu Sukhraj Singh.
5. Munshi Bishamber Nath, Vakil.

4. A bye-election was held on the 17th January 1903, to fill the vacancy caused by the resignation of Munshi Har Bilas Sarda, at which Munshi Ram Bilas Sarda was elected, *vide* your endorsement No. 187, dated the 20th January 1903.

5. In accordance with Section 24 of the Ajmer Municipalities Regulation 1886, Lt.-Col. William Loch, A. D. C., C. I. E. continued to be a member of the Committee up to the 30th November 1902, after which date he resigned in consequence of his retirement from the public service, *vide* your endorsement No. 3857, dated the 30th December 1902.

6. Messrs. Mehta and Bishamber Nath were Vice-Chairmen of the Committee during the year, and the former acted as Chairman until the close of the year, after which, I was elected in accordance with Section 24 of the Ajmer Municipalities Regulation 1886; *vide* your No. 1674, dated the 20th May 1903.

7. I beg to annex the following appendices :—

Appendices

- i. Statement A, showing the actual receipts and disbursements for 1901-1902, and estimated and actual income and expenditure of the year under report.
- ii. Table 2, showing the income of this Municipality during the year under report.
- iii. Table 3, showing the expenditure of this Municipality during the year under report.
- iv. Table 4, showing population, with income and expenditure, of the Municipality during the year under report.
- v. Statement B, showing expenditure on original works during 1902-1903.
- vi. Statement C, showing repairs executed during 1902-1903.
- vii. Statement D, showing expenditure on establishment during 1902-1903.

- viii. Statement E, showing the quantity and value of all articles imported and taxed during 1902-1903.
- ix. Statement F, showing the periods in which the principal articles were imported during 1902-1903.
- x. Statement G, showing the value of goods received in the Bonded Warehouse during 1902-1903.
- xi. Statement H, showing the prosecutions in the year under review.
- xii. Statement I, showing the civil cases during 1902-1903.
- xiii. Annual Report on the water-supply system of Ajmer during the year 1902-1903, by the Executive Engineer, Ajmer Provincial Division—Appendix J.
- xiv. Table I, showing population and constitution of this Municipality during the year under report.

8. In dealing with the Finances of this Municipality, the incidence of taxation and average consumption of dutiable articles have been calculated on a population of 1,11,081 souls, according to the census report of 1901, and not on a population of 1,13,001 as shown last year, which was based on the figures received from your office in March 1901, and which have subsequently been pronounced as provisional.

9. The following statement shows the gross receipts and expenditure during the past two years.

	Actuals for 1901-1902.	1902-1903.	
		Estimated.	Actuals.
	Rs-	Rs-	Rs-
Opening Balance	6,628	26,145	26,145
Receipts	1,91,680	1,83,551	1,83,551
Total	1,98,308	2,09,696	2,09,696
Disbursements	1,72,163	1,56,913	1,56,913
Balance	26,145	52,783	52,783

In the above statement, the columns of "Estimated" and "Actuals" for the year under report are the same, and so throughout this report, as before the Budget for 1902-1903 was finally submitted for sanction the actuals were known.

10. The total receipts during the year under report, inclusive of opening balance, show an increase of Rs- 11,388. This is due to the fact that the opening balance on 1st April 1902 exceeded that on 1st April 1901 by Rs- 19,517. On the other hand, receipts from all other sources during the year show a decrease of Rs- 8,129. The following statement shows under what heads the variations occurred.

Total receipts during the year inclusive of opening balance.

Head of Service.	Heads.	1901-1902.	1902-1903.	Increase.	Decrease.
		Rs.	Rs.	Rs.	Rs.
A. 1	Octroi and Bonded Warehouse ...	1,49,143	1,39,862	...	9,281
B. 1	Cattle-pound ...	994	858	...	136
B. 2	Hackney Carriage Licenses ...	274	273	...	1
C. 1	Rent of lands and houses ...	3,329	3,845	516	...
C. 2	Sale-proceeds of lands ...	137	2,161	2,024	...

	Total Rupees ...	1,91,680	1,83,551	+ 4,488	- 12,617
				— 8,129	

11. The variations calling for remarks will be found explained under their respective heads.

12.	Actuals for 1901-1902 ...	Rs. 1,49,143
Municipal Taxes—	Budget Estimate for 1902-1903 ...	Rs. 1,39,862
Octroi.	Actuals for 1902-1903 ...	Rs. 1,39,862

The following statement shows the details of the gross Octroi receipts as compared with the previous year :—

		Actuals 1901-1902.	1902-1903.		Difference in actuals.
			Estimated.	Actuals.	
		Rs.	Rs.	Rs.	Rs.
I	Grain, Maida, Ata and Suji ...	15,840	14,694	14,694	— 1,146
	Sugar ...	33,299	24,570	24,570	— 8,729
	Gur ...	4,842	3,779	3,779	— 1,063
	Ghi ...	11,991	16,395	16,395	+ 4,404
	Other articles of food ...	17,565	17,669	17,669	+ 104
II	Animals for slaughter ...	6,659	7,050	7,050	+ 391
III	Fuel, lighting and washing ...	6,081	6,763	6,763	+ 682
IV	Building materials ...	1,883	2,009	2,009	+ 126
V	Drugs, gums, spices and perfumes	3,632	2,762	2,762	— 870
VI	Tobacco ...	3,965	4,067	4,067	+ 102
VII	Piece-goods, viz., cloth, &c. ...	32,595	29,607	29,607	— 2,988
VIII	Metals ...	9,744	9,032	9,032	— 712
IX	Dyeing and colouring materials ...	1,029	1,437	1,437	+ 408
X	Bonded warehouse ...	18	28	28	+ 10
	Total Rs. ...	1,49,143	1,39,862	1,39,862	— 9,281

13. The total gross Octroi receipts in 1902-1903 amounting to Rs 1,39,862 when compared with those of the previous year (Rs 1,49,143), show a decrease of Rs 9,281.

From the above statement it will be observed that decreases have accrued under the items of grain, sugar, gur, drugs and spices, &c., cloth and metals.

14. The net receipts from Octroi are as follows : —
Net receipts from Octroi.

Y E A R S .				Total gross receipts.	Refunds.	Total net receipts.	Percentage of refunds on net receipts.
				Rs.	Rs.	Rs.	Rs.
1885-1886	1,05,420	22,339	83,081	26·88
1886-1887	1,04,570	25,005	79,565	31·42
1887-1888	98,385	23,368	75,017	31·15
1888-1889	97,976	21,413	76,563	27·96
1889-1890	1,10,075	24,066	86,009	27·98
1890-1891	1,09,245	24,658	84,587	29·15
1891-1892	1,02,384	21,855	80,529	27·13
1892-1893	1,08,012	24,181	83,831	28·84
1893-1894	1,15,252	27,321	87,940	31·05
1894-1895	1,33,989	30,656	1,03,333	29·66
1895-1896	1,19,906	24,764	95,142	26·02
1896-1897	1,05,748	23,237	82,511	28·16
1897-1898	1,05,165	23,891	81,274	29·39
1898-1899	1,07,505	18,431	89,074	20·69
1899-1900	1,38,973	31,548	1,07,425	29·36
1900-1901	1,29,240	32,929	96,311	34·19
1901-1902	1,49,143	31,120	1,18,023	26·36
1902-1903	1,39,862	27,752	1,12,110	24·75

From the above statement it will be seen that the net Octroi receipts during the year, as compared with those of last year, show a decrease of Rs. 5,913.

15. The incidence per head of population is given below :—

Incidence per head of population.

Articles.					1901-1902.			1902-1903.		
					Rs.	A.	P.	Rs.	A.	P.
Food	0	9	10	0	9	6
Fuel	0	0	9	0	0	11
Cloth	0	3	4	0	2	11
Metals	0	0	7	0	0	7
All other heads	0	2	3	0	2	3
Total					1	0	9	1	0	2

In the above statement the figures for the year 1902-1903, have been worked out on a population of 1,11,081, for the reasons stated in para. 8 of this report, whereas the figures for the previous year have been calculated on a population of 1,13,001.

16. The Octroi has been collected departmentally as heretofore. The cost of collection of Octroi. of collection was as under :—

Years.				Amount collected.	Cost of collection.	Percentage.		
				Rs.	Rs.	Rs.	A.	P.
1900-1901	1,29,240	3,327	2	9	2
1901-1902	1,49,143	3,170	2	2	0
1902-1903	1,39,862	3,518	2	8	3
Total				4,18,245	10,015	7	3	5
Average				1,39,415	3,338	2	6	6

The officiating Octroi Superintendent, Abdul Guffar, was paid at the rate of Rs. 20 per month, but it was subsequently resolved in General Committee's Resolution V dated the 21st July 1902 to pay him at the rate of Rs. 100 per month, and hence the difference between the two rates, from 6th January 1902 to 10th June 1902, was paid during the year under report, which explains the increase in the cost of collection now, as also the decrease in the previous year.

The proposal to transfer the work of Octroi collection on rail-borne trade to the Railway at Ajmer, has been negatived on the score of extra expenditure, as the Railway asked Rs. 3 % on gross collections as their commission, *vide* this Committee's Resolution No. II dated the 25th August 1902.

17. The average consumption per head of population per annum of the Consumption per head undermentioned articles was as under :—
of population.

Articles.					1901-1902.			1902-1903.		
					Mds.	Srs.	Ch.	Mds.	Srs.	Ch.
Grain	0	11	0	0	6	14
Sugar	0	3	1	0	2	6
Gur	0	2	4	0	2	7
Ghi	0	0	8	0	0	12
Rico	0	1	8	0	1	4
					Rs.	A.	P.	Rs.	A.	P.
Cloth	3	9	4	3	6	8

In the above statement the figures for the year 1902-1903 have been worked out on a population of 1,11,081 for the reasons stated in para. 8 of this report, whereas the figures for the previous year have been calculated on a population of 1,13,001.

18.	Actuals for 1901-1902	...	Rs. 994
Cattle-pound.	Budget Estimate for 1902-1903	...	„ 858
	Actuals for 1902-1903	...	„ 858

The following statement gives further details :—

Impounded.		By the Public.		By the Municipal Establishment.		By the Forest Establishment.		Total.	
		1901-1902.	1902-1903.	1901-1902.	1902-1903.	1901-1902.	1902-1903.	1901-1902.	1902-1903.
Cattle impounded	...	No. 2,811	No. 2,702	No. 1,596	No. 1,645	No. 1,470	No. 1,371	No. 5,877	No. 5,718
Cattle sold	...	11	9	2	4	13	13
		Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Amount of fines realised	...	413	367	270	291	166	165	849	824
Sale proceeds of cattle.	...	144	13	1	22	145	34
Total								...	994 858

19.	Actuals for 1901-1902	... Rs. 274
Hackney Carriage Licenses.	Budget Estimate for 1902-1903	... „ 273
	Actuals for 1902-1903	... „ 273

The sum of Rs. 273 represents license fees on Hackney Carriages as under :—

3 First Class @ Rs. 5 each ...	Rs. 15
31 Second „ „ 3 „ ...	„ 93
8 Third „ „ 2 „ ...	„ 16
106 Fourth Class, or Ekkas @ Re. 1 each ...	„ 106
Fresh fees on account of revocations in above ...	„ 43
Total ...	„ 273

20.	Actuals for 1901-1902	... Rs. 3,329
Rent of lands and houses.	Budget Estimate for 1902-1903	... „ 3,845
	Actuals for 1902-1903	... „ 3,845

The rise and fall under this head is due to competition at the annual auction sales held of leases of Municipal property and calls for no special remarks.

The question of realising Kaisargang ground rent is still under consideration, but rents have been realised at the reduced rate up to 30th June 1902, *vide* your No. 3010 dated the 18th October 1902.

21.	Actuals for 1901-1902	... Rs. 137
Sale-proceeds of Land.	Budget Estimate for 1902-1903	... „ 2,161
	Actuals for 1902-1903	... „ 2,161

The sum of Rs. 2,161 received on account of sale proceeds of lands in 1901-1902 is made up as under :—

No.	Letter from the Hon'ble the Chief Commissioner, Ajmer-Merwara, sanctioning transfer of the land.		Name of Transferee.	Area.	Amount.		
	No.	Date.			Rs.	A.	P.
1	<u>1261</u> 438 III	1st October 1902.	Kunwar Chand Mal, Proprietor, - Ice Factory ...	Big. Bis. 6 13	2,028	4	..
2	3327 S	7th September 1902.	Musammat Vilayati Begam ...	9½ sq. yards.	133
3	2801 S	10th July 1902.	Balance from Modu Lal, son of Badri Dass	1	8
Total Rs. ...					2,161	5	8

22.	Actuals for 1901-1902	... Rs. 580
Fines.	Budget Estimate for 1902-1903	... „ 358
	Actuals for 1902-1903	... „ 358

The number of persons convicted during the year under report for offences described in statement H. was 860, in 1901-1902 the figures were 2,965.

The fines in 1902-1903 amounted to Rs. 350-10-9 or Re. 0-6-8 per head on the average, against Re. 0-3-2 in the previous year. I would again observe that deterrent fines are not inflicted by the Honorary Magistrates, and this has also been pointed out by the Health Officer. Further it has been observed that the Honorary Magistrates throw out Municipal cases without justification, some of which have already been reported, *vide* this office No. 200 dated the 6th March 1903. Under section 34 of the Police Act, 235 persons were convicted, as shown in the following statement :—

					Police.	Municipal.
For urinating in the street	} 218	17
For excreting in the street		
For other acts		
Total Rs.				...	218	17

The fines inflicted under this section amounted to Rs. 75-5 6 or Rs. 0-5-2 per head on the average.

23.	Actuals for 1901-1902	Rs. 5,004
Income from gardens.	Budget Estimate for 1902-1903	„ 2,216
	Actuals for 1902-1903	„ 2,216

The following statement gives details of garden receipts during the past five years :—

	1898-99.	1899-00.	1900-01.	1901-02.	1902-03.
	Rs.	Rs.	Rs.	Rs.	Rs.
Vegetables	1,023	774	1,085	1,772	858
Grass	291	93	25	156	124
Fruits	500	1,567	151	631	670
Sugarcane	440	1,160
Plants	172	46	109	135	146
Flowers	205	353	83	295	85
Other produce, viz., Jowar, Makka and Garlic	9	162	155	16
Rent of land	240	301	142	503	222
Seeds.	13	3	2	2	4
Miscellaneous	168	254	362	195	91
Total Rs.	3,061	3,391	2,121	5,001	2,216

The variations under the above items as compared with the receipts of last year show a decrease of Rs. 2,788 which is chiefly due to scarcity of water in consequence of which among other failures the sugarcane crop failed entirely.

24.	Actuals for 1901-1902	Rs. 17,071
	Budget estimate for 1902-1903.	„ 17,503
Miscellaneous sales.	Actuals for 1902-1903	„ 17,503

The details are as under :—

					1901-1902.	1902-1903.
					Rs.	Rs.
1.	Municipal water	15,750	16,250
2.	Dry trees and grass	626	213
3.	Fruits	212	560
4.	Other items	483	480
				Total Rs.	17,071	17,503

The receipts in 1902-1903 on account of Municipal water supplied (a) for Railway purposes, and (b) to private houses and public places, was Rs. 16,250 against Rs. 15,750 received in 1901-1902. The rates to be charged to the Railway at Ajmer have since been settled at annas five per 1,000 gallons from 1st April 1902 for a period of 5 years, but the difference between the former and enhanced rates which amounts to Rs. 2,050, and which has been included by the Executive Engineer, Ajmer Provincial Division in the statement attached to his report, has not yet been demanded from the Railway. Item 4 includes the sale proceeds of the materials of the old plant house at Foyasagar, which fetched Rs. 250 at auction.

The following statement gives the details of collection :—

YEARS.	Arrears outstanding on the 1st April.	Demand.	Total.	Collection.	Balance outstanding on 31st March.
	Rs.	Rs.	Rs.	Rs.	Rs.
1901-1902 ...	4,768	15,968	20,736	15,750	4,986
1902-1903 ...	4,986	18,227	23,213	16,250	6,963

25.	Actuals for 1901-1902	Rs. 1,72,163
Disbursements.	Budget estimate for 1902-1903	„ 1,56,913
	Actuals for 1902-1903	„ 1,56,913

The total disbursements during the year under report amounted to Rs. 1,56,913 against Rs. 1,72,163 in the previous year.

The difference shows a decrease in expenditure of Rs. 15,250 which will be found fully explained in their proper places.

The following statement shows the total expenditure during the past two years under the several prescribed heads :—

Prescribed Heads.	Particulars.	ACTUALS.	
		1901-1902.	1902-1903.
		Rs.	Rs.
A i (a)	Head Office	7,379	8,914
" " (c)	Honorary Magistrate's Office	709	710
" " (d)	Nazul and Irrigation	251	294
" " (e)	Buildings, etc.	351	2

Head Office.	Budget Estimate for 1902-1903	" 8,914
	Actuals for 1902-1903	" 8,914

The expenditure under this head during the past 5 years is as under :—

	1898-99.	1899-00.	1900-01.	1901-02.	1902-03.
	Rs.	Rs.	Rs.	Rs.	Rs.
Salaries	5,736	6,119	6,282	6,440	8,029
Contingencies	1,313	1,089	1,167	939	885
Total	7,049	7,208	7,449	7,379	8,914

The increase of Rs. 1,589, under "salaries" is due to (i) the pay of certain clerks drawing respectively Rs. 20 ; 20 ; and 10 per month which was hitherto charged to other Departments, being debited to the Head Office, so as to bring them under the immediate control of the Chairman ; (ii) the appointment of an Accountant at Rs. 50 per month as also a Daftri, Farash and Peon at Rs. 10 ; 6 ; and 6 ; per month each ; (iii) an increase of Rs. 20 per month to the Assistant Secretary and (iv) the annual increment of Rs. 10 per month to the Secretary.

27.	Actuals for 1901-02 ...	Rs. 31,120
Octroi Refunds.	Budget Estimate for 1902-1903 ...	„ 27,752
	Actuals for 1902-03 ...	„ 27,752

The following statement shows the amount paid on the several classes, while in appendix E, the details are given :—

		1901-1902	1902-1903
		Rs.	Rs.
I	Grain of all kinds, Maida, Suji and Ata (flour) ...	1,203	706
	Sugar	7,994	5,992
	Gur	999	1,053
	Ghi	1,483	2,118
	Other articles of food	2,497	1,383
II	Animals for slaughter
III	Fuel, lighting and washing	843	523
IV	Building materials	110	76
V	Drugs, spices and perfumes	745	730
VI	Tobacco	323	578
VII	Piece-goods, viz, cloth, &c.	8,899	9,273

IX	Dyeing and coloring materials	275	226
	Total Rs.	31,120	27,752

19·84 per cent of the gross Octroi collections was refunded during the year under report, against 20·86 in the previous year.

28.	Actuals for 1901-1902 ...	Rs. 3,542
Lighting.	Budget Estimate for 1902-1903 ...	„ 3,726
	Actuals for 1902-1903 ...	„ 3,726

The details of expenditure under this head are as follows :—

	1901-1902.	1902-1903.
	Rs.	Rs.
Establishment	993	946
Oil	1,996	1,931
New lamps and posts
Repairs to lamps	499	740
Miscellaneous	54	109
Total Rs. ...	3,542	3,726

The increase in expenditure amounting to Rs. 184 is due to the renewal of 100 burners for road-side lanterns. The average number of lamps in use during the year was the same as last year. 497 cases of Kerosine oil were used during the year against 501 cases in 1901-1902 and the average rate per case was Rs. 4/- against Rs. 3-15-3 in the previous year.

The total number of lamps in use on the 31st March 1903 was 425.

Water Works.	Budget Estimate for 1902-1903	..	11,354
	Actuals for 1902-1903	11,354

This item includes the payment of the 3rd instalment to the Railway at Ajmer for pumping Budha Pushkar water during 1899-1900, which amounts to Rs. 6,016, thus leaving a balance of Rs. 12,032 to be paid.

During the year the following repairs were executed :—

Ajeypal channel, Dhobies' Ghat, leakage at Anasagar.

The Annual Report on the Water supply system of Ajmer, during the year, and appendices received from the Executive Engineer, Ajmer Provincial Division, will be found attached as appendix J to this report.

The following is a list of buildings having taps, which have been erected at the cost of the owners, as it stood on the 31st March 1903 :—

No.	Name of owner or Occupier.	No.	Name of owner or Occupier.

1. Water supplied to private persons	...	Gallons 1,10,69,000	Rs. 4,449	5	0
2. The Cantonment Merwara Battalion	...	„ 12,55,000	„ 481	2	0
3. The Railway at Ajmer	...	„ 1,91,10,000	„ 13,296	14	0
Total		...	„ 18,227	5	0

Pumping from the Foyasagar had to be resorted to between the 21st June and 21st July 1902, for which an extra charge of anna 1 per 1,000 gallons or fraction thereof was made.

Conservancy.	31. Actuals for 1901-1902	...	Rs. 41,029
	Budget Estimate for 1902-1903	...	„ 30,301
	Actuals for 1902-1903	...	„ 30,301

The details of charges under this head are given below—

		1901-1902.	1902-1903.
		Rs.	Rs.
1	Road cleaning ...	494	504
2	Latrines and other works ...	822	1,094
3	Establishment ...	13,190	14,565
4	Purchase and repair of carts ...	9,784	2,925
5	Purchase hire, keep and feed of cattle ...	12,295	8,510
6	Purchase of di-infectants ...	146	326
7	Land for trenching night soil
8	Burial of paupers ...	671	549
9	Miscellaneous ...	3,627	1,828
Total		41,029	30,301

The increased expenditure under item 3 is due to [1] the temporary Conservancy Establishment having been made permanent at a cost of Rs- 125 per mensem which was hitherto charged to Conservancy miscellaneous and [2] a horse allowance of Rs- 15 per mensem having been granted to the Suburban Sub-Inspector.

32. The sum of Rs 2,925 was spent under this head in 1902-1903 irrespective of the advances made to the Railway at Ajmer, in previous years. I would add that certain special repairs and renewals of the Board's rolling stock continue to be executed by the Railway and that up to the present ten new carts with frames, 19 new bodies without frames, have been received and 4 carts repaired. According to the statement of account, furnished by the Loco. Superintendent, Rajputana-Malwa Railway, Ajmer, showing the receipts and disbursements of the sums advanced aggregating Rs 10,000, a credit balance of Rs 1,902 remained in his hands on the 1st April 1903.

33. The expenditure under this head was Rs. 8,510 in 1902-1903, as against Rs 12,295 in 1901-1902 or a decrease of Rs. 3,785. It may be noted that the expenditure in 1901-1902 includes outstandings for grass purchased in 1900-1901, which were paid in that year. During the year 15 head of cattle were purchased at a cost of Rs. 520 to replace those which died and to complete the required strength in draught cattle.

34. The following statement shows the quantity of filth [solid and liquid] removed during the last ten years :—

YEARS.			Population.	Number of cart loads.	Quantity in tons.	Average quantity per head per annum in lbs.
1893-94	50,000	47,307	23,759.09	1.064.41
1894-95	50,000	45,597	22,900.28	1,025.93
1895-96	50,000	51,223	25,725.84	1,152.52
1896-97	50,000	51,319	25,774.05	1,154.67
1897-98	50,000	56,794	28,528.77	1,278.09
1898-99	50,000	60,409	30,339.34	1,359.21
1899-1900	50,000	64,217	32,251.84	1,444.88
1900-1901	57,000	62,073	31,176.06	1,225.16
1901-1902	57,000	61,520	30,897.32	1,214.21
1902-1903	57,000	67,118	33,271.31	1,307.32

35. For the purposes of conservancy arrangements the Ajmer Municipality is divided into 11 wards as under :—

1. Madar gate to Agra gate, bounded on the east by city wall, and on the west by Naya-bazar and Purani Mandi.
2. From Agra gate to Delhi gate, bounded on the east by Naya bazar up to the Choupar, and on the west by the Dargah bazar.

3. From Naya bazar Chonpar up to the Nala bazar, *via* Ghiwala gate and Gali Khazanchiyan, on the south from Gali Khazanchiyan up to the Dargah bazar.
4. Kayastha Mohalla, Purani Mandi up to the Gali Khazanchiyan.
5. From Madar gate up to Usri gate, bounded on the north by Nala bazar, and on the west by Ghasiti and Diggi Bazar.
6. From Ghasiti to Langarkhana Gali, including Nawab-ka-bera and Regar Mohalla.
7. Lakhankotri, from Delhi gate to Dargah bazar, bounded on the east by Dargah bazar, and the south by Nala bazar and Chauk Surat Ram.
8. Khadim Mohalla, Shorgar Mohalla, Dargah, Lakhankotri, Silawat Mohalla and Indarkot.
9. Kaisarganj, including Cavendishpura.
10. Suburbs.
11. Railway.

36. From the gross expenditure on conservancy Rs. 30,301, Rs. 9,590 should be deducted, as this sum was received by the Municipality:—

(a) Conservancy fees	Rs. 8,568
(b) Sale of manure	" 290
(c) Other items	" 732
			Total Rs. 9,590

thus leaving a net cost to the Municipality of Rs. 20,711 against Rs. 31,635 in the previous year.

37.	Actuals for 1901-1902	...	Rs. 2,889
Hopitals and Dispensaries.	Budget Estimate for 1902-1903	...	" 3,826
	Actuals for 1902-1903	...	" 3,826

The expenditure under this head is as under:—

No.	Items.	1901-1902.	1902-1903.
		Rs.	Rs.
1	Grant to Government Dispensary ...	1,500	1,500
2	Grant to Mission Dispensary ...	120	120
3	Salary of Baid and Hakim ...	600	600
4	Maintenance of lunatics at Lahore Asylum ...	669	624
5	Salary of Assistant Health Officer	982
Total Rs. ...		2,889	3,826

The increased expenditure in item 5 is due to the appointment of Mohamad Hafiz Ulla as Assistant Health Officer, for the present, on a salary of Rs 75, per month *plus* Rs 20 per month on account of horse allowance from the 1st July 1902, *vide* this Committee's Resolution No. I, dated 6th June 1902.

38. The following statement shows the births and deaths registered during the past two years :—

Years.			Births.	Ratio per mille of population of 73,839.	Deaths.	Ratio per mille of population of 73,839.
1901-1902	1,469	19.39	3,173	41.88
1902-1903	1,811	24.52	3,156	42.74

In the above statement the ratios per mille of births and deaths for the year 1902-1903 only have been worked out on a population of 73,839, according to the census report of 1901, and not on a population of 75,759 as shown last year, which was based on the figures received from your office in March 1901 and which have subsequently been pronounced as provisional.

39.	Actuals for 1901-1902	Rs. 582
Vaccination.	Budget Estimate for 1902-1903	„ 579
	Actuals for 1902-1903	„ 579

The details of expenditure under this head are as follows :—

Miscellaneous	412	251	213	566	537
Total Rs. ...	5,470	5,885	4,859	4,723	4,798
Deduct Receipts Rs. ...	3,061	3,391	2,121	5,004	2,216
Net Cost Rs. ...	2,409	2,494	2,738	—281	2,582

In the item of “establishment” during the year under report, the pay of the garden clerk at Rs. 20/per month and that of a peon at Rs. 6/ per month have been transferred to the Head Office establishment, and the pay of the Foyasagar establishment, which according to the sanctioned scale is Rs. 42/ per month and which was hitherto charged to Water Works, has been debited to this head. Owing to scanty rain-fall during the year, the Anasagar, from which the gardens are watered, sank below sluice level and water had to be raised with difficulty

by bullock and hand power and eventually trenches had to be dug in the bed of the tank, hence no profitable crops could be raised to swell the receipts which show a large falling off in consequence.

43	Actuals for 1901-1902	Rs.	3,183
	Budget Estimate for 1902-1903	"	305
Public Works Buildings Original and Repairs.	Actuals for 1902-1903	"	305

* Mr. Collins was absent throughout the year in consequence of the transfer of his services to Bombay.

51. Under Act XI of 1890, (Prevention of Cruelty to Animals) 39 cases
 Prevention of Cruelty to Animals are reported to have been instituted by the Police.

52. During the year under report the Octroi Schedule at present in
 Octroi Schedule. force was revised to conform with a Resolution of the Government of India in the Home Department No. 55-60, dated the 24th April 1899, *vide* this Committee's proceedings No. XVIII, dated the 28th July and the 1st August 1902, but owing to the receipt of a subsequent Resolution No. 73-76, dated the 19th April 1902, in this office, the matter is still under the consideration of the Committee.

53. At the request of the Commissioner, Ajmer-Merwara, a rough assessment of private buildings and lands within Municipal limits
 Assessment. has been prepared, which shows an annual rental value of Rs. 5,01,365. Should it be considered expedient to impose extra taxation in consequence of the large anticipated deficit in the revision of the present Octroi tariff, the matters will be taken up as decided in this Committee's Resolution No. III, dated the 25th August 1902.

54. During the short period of my tenure of office as Chairman, I have met with cordial co-operation from the members of the Municipal Committee, to whom I desire to express my acknowledgments for their labours and for the ungrudging attention which they have devoted to a number of important questions.

The thanks of the Committee are due to Major H. R. Woolbert, Civil Surgeon, Ajmer, for his advice and assistance in all matters connected with the health and sanitation of the city.

Rai Bahadur Pundit Sham Nath, Executive Engineer, and Mr. A. J. Fluke, who officiated for him during the latter part of the year, have always been ready to help the Committee in their department, and Munshi Allanur Khan has continued to supervise the working of the Conservancy Tramway Station with his usual care and thoroughness.

The Octroi department has worked well and smoothly under the management of Munshi Bhairon Narayan, the Superintendent of Octroi.

Finally, I must acknowledge the unfailing zeal and assiduity with which the Secretary, Mr. A. M. McKenzie, and the Assistant Secretary, Munshi Gopi Nath, have performed their duties.

I have the honor to be,

Sir,

Your most obedient servant,

C. W. WADDINGTON, M. A.,

CHAIRMAN,

Municipal Committee, Ajmer.

APPENDICES.

APPENDIX J.

Annual report on the water supply of Ajmer for the year 1902-1903.

—:o:—

The water level of the Foy Sagar Lake on 1st April 1902 stood at 12·06 feet above bed of sluice, representing a capacity of 34·14 M. C. ft. of water as against a depth of 20·67 feet and capacity of 107·54 M. C. ft. on 1st April of the preceding year. The rainfall of 1901-1902 as already reported was very small only amounting to 9·89 inches, and added practically nothing to the water in the Lake, so that there was a continuous fall of the water level throughout the year, followed in the year under report by a rainfall of 16·53 inches which, however, consisted mainly of light showers, there being only few occasions on which an appreciable rise in the Lake took place, *viz.*—

	Rainfall.	Rise in feet.
27th June	... 3·16	... ·88
15th July	... ·95	... 1·10
18th and 19th July	... 3·02	... 5·74
29th August	... 1·40	... 1·08
20th September	... 1·57	... 1·50

The result of the rains was a storage of 50·56 M. C. ft. of water from a total rainfall of 16·53 inches in a catchment area of 10·2 square miles representing a run off percentage of 13·4 of the total rainfall of the year, the effect of which was to raise the lake level to 15·40 above bed of sluice on 20th September which was the highest level attained during the year.

Owing to the low level at which the water stood on 1st April 1902 it was found impossible to deliver an adequate supply of water by gravitation alone during the hot weather just before the rains and on June 21st when the depth of water on the sluice at Foy Sagar had fallen to 7·80 feet, pumping from the Foy Sagar had to be resorted to till 21st July in order to keep up a proper supply, the water also being allowed to run in by gravity during the night when the pumps were not at work.

During this period the water rate to private consumers was enhanced by Re. 0-1-0 per 1,000 gallons.

By the 21st July the water level having risen to 14·38 feet, pumping from Foy Sagar was discontinued. The ordinary rates during the year for water supplied to private consumers were Rs. 1/8 for 3,000 gallons or less, and Re. 0-6-0 per 1,000 for the excess over 3,000 gallons. By Resolution No. I. of the Proceedings of Ajmer Municipal Committee dated 24th January 1903, the rate for water supplied to the Railway has been fixed at Re. 0-5-0 per 1,000 gallons or fraction thereof instead of the rate of Re. 0-4-0 previously charged. A tabular statement is attached showing water levels, capacities, consumption, loss of water, and income for the year, month by month, from which it appears that of the total out-goings from Foy Sagar Lake 39 per cent represents the consumption, and 61 per cent the loss from leakage, evaporation and all other causes.

Also that of the consumption, the Railway takes about one-fourth of the water and pays three-fourths of the revenue, while the town and station consume three-fourths of the water and pay one-fourth of the revenue. The highest water level attained in 1902-1903 was on 20th September 1902, *viz*, 15'40. The water level on the same date in 1901 was 17'10 or 1'70 feet higher, so that the water supply is in a worse condition this year than last, and it will be necessary to arrange for pumping the water from Foy Sagar probably from 1st May instead of 21st June as in 1901.

ANASAGAR.

The rainfall in Ajmer for 1902-1903 was.—

May	1'74
June	2'10
July	4'00
August	4'90
September	4'72
Total				17'46

The Lake was dry before the rains, some water came in on 27th June 1902, and dried up again by 7th July. From 17th July to 23rd September the water rose at intervals till it reached 2'10 on the gauge *i. e.* above sluice level representing a depth of 6'10 inches in the tank.

On the 31st March 1903 the water stood at —1'23 *i. e.* 1'23 feet below sluice representing a depth of 2'77 feet in the tank. The heaviest rainfall was on 20th September *viz*, 2'55 which raised the water level in Anasagar from zero to 2'10 above sluice. On 31st March 1901 level was 7'08 above sluice level.

The East Feeder did not contribute any thing to the Anasagar. Water for the Municipal gardens and Dhobies ghats has been supplied from the Anasagar during the year. A little quantity of Foy Sagar water having also been supplied between 21st June and 21st July 1902 when pumping was in progress and the bed of Anasagar Lake was dry.

(Sd.) SHAM NATH, RAI BAHADUR,
EXECUTIVE ENGINEER,
Ajmer Provincial Division.

ANNUAL REPORT FOR 1902-03.

RAINFALL.

During the year under report 17·04 inches of rainfall were registered in Ajmer against 13·57 inches last year, the average of the previous six years being 18·67 inches.

The rainfall from June to September was 16·46 inches against 10·86 inches for the corresponding period of 1901. The amount for each individual month is shown below :—

	1902.		1901.
June	... 2·75	1·11
July	... 3·51	5·32
August	... 4·76	4·18
September	... 5·44	·25

WATER-SUPPLY.

The Foy Sagar water which is the main source of supply to the Ajmer City is regularly condemned by the Chemical Examiner as non-potable owing to excess of organic matter. The last analysis was made in 1899.

VITAL STATISTICS.

The total number of deaths reported during the year 1902-03 in Ajmer City and Suburbs was 3156 against 3083 last year showing an increase of 73. The annual death rate per 1,000 of population was 42·74 against 41·75 in 1901-02, an increase of ·99

Out of the total mortality the number of deaths among children under five years of age was 1294, a percentage of 41·00 of the total mortality, against 1062 last year.

Cholera.—During the year seven cases of cholera were reported of which six proved fatal. The first case occurred on the 7th July and the last on 5th September 1902.

Small-pox.—One death from small-pox was reported.

Fevers.—There were 1234 deaths attributed to fevers against 1181 last year showing an increase of 53.

Bowel complaints.—The total mortality from bowel complaints was 353 against 308 in the previous year showing an increase of 45.

BIRTHS—The number of births registered during the year was 1811 against 1468 in 1901-02, an increase of 343. The birth rate per 1,000 for the two periods was 24.53 and 19.88 respectively, an increase of 4.65 per mille.

The number of deaths exceeded births by 1345.

COMPARATIVE HEALTH OF THE CITY WARDS.

As is usual the least unhealthy is No. 1 Ward, and Nos. 4, 2, 8 and 7 come next in the order named. The most unhealthy is No. 6 Ward followed by Nos. 3 and 5.

VACCINATION.

The total number of Vaccinations performed in the Ajmer Town and Suburbs during 1902-03 was 2641 against 2151 last season, an increase of 490 cases.

Of these 2610 were primary vaccinations and 31 re-vaccinations against 2151 and *nil* respectively last season. The percentage of success of primary vaccinations was 99.08.

CONSERVANCY.

Rs. 48,038 were spent on public health during the year under report as compared with Rs. 58,049 last year. The decrease is chiefly due to less expenditure on conservancy. The Conservancy Tramway continues to be worked in a satisfactory manner and the trenching ground is well looked after.

The amount of solid and liquid filth removed by the Conservancy Tramway rose from 76,90,000 to 82,79,750 gallons.

The Conservancy carts are still in bad repair.

Certain private latrines in the city and suburbs have been added and others improved.

Some new urinals have been constructed.

Covered drains in the principal streets and bazars are very objectionable, and should be abolished, open saucer drains being substituted. The interests of the shop-keepers, however, stand in the way, and the matter is still under consideration.

The huts of the Plague Observation camp near the Railway station are kept in good order.

20th June 1903.

H. R. WOOLBERT, M. B. Major, I. M. S.,

Civil Surgeon, Ajmer.

To

THE CHAIRMAN, MUNICIPAL COMMITTEE, AJMER.

SIR,

In reply to your No. 431, dated 16th April 1903, I have the honor to state as follows :—

- (1) The new lane near the old Usri Gate made by dismantling the city-wall is in an unsatisfactory condition and requires levelling up.
- (2) The route used for carrying excreta and sewage water is the most unsuitable one. The sweepers pass in large numbers all day long and especially in the mornings and evenings along the Bazar leading from the Purani Mandi to the foul water collecting station near the encamping ground, by the Madar Gate, where 4 roads meet and congestion of traffic is the greatest in the city. Madar Gate being practically the chief entrance into the city from outside, it often happens that the foul water chatties and carts are upset and the passers by get their clothes soiled. The route should be changed and the sweepers should pass by the other street which goes by the Ramdwara and crossing the Nala Bazar goes into Mondri Mohalla and thence on to the collecting station. This though slightly longer, is a much more suitable route, as there is comparatively little traffic.
- (3) The Utar Ghaseti lane and one in the Silawat Mohalla are badly in need of stone pavements. This matter has more than once been reported by the former Ward Superintendent, but evidently owing to want of funds nothing has been done yet.
- (4) The two public latrines in this ward are of the old pattern and are generally in an unsatisfactory condition. Latrines of the new and improved pattern should be substituted for these.

I have the honor to be

Sir,

Your most obedient servant,

RAM BILAS SARDA,

Superintendent, Ward No. V.

To

THE CHAIRMAN, MUNICIPAL COMMITTEE, AJMER.

SIR,

I have the honor to submit my report for the last official year for the city Sub-Ward No. VI, for incorporation in the Municipal Administration Report for 1902-03.

The number of Public latrines and urinals, street lamps and hydrants remains unaltered but in the interest of my ward, I would strongly urge the necessity of increasing the number in all these departments.

The arrangements for removing excreta, filth and sweepings is the same as it had been hitherto and I think it is time now that some improvements were made in this direction as it is admitted on all hands that the present arrangement is very unsatisfactory.

The water reservoir "Diggi" was filled with Foy Sagar water as in the previous year and was a great help to the public at large.

The conservancy arrangements at the Tramway Station and the trenching ground were supervised by me as before. Many bullocks are without sheds and it is hoped that the construction of stalls will be taken on hand as provision has been made for this work in the budget estimate for 1903-04.

Trolley wheels and iron rails, lately purchased, have replaced a lot of unserviceable ones. Iron carts for the removal of filth and foul water are badly required as almost all of them have become quite unserviceable and I would recommend that as soon as funds are available thorough repairs should be executed to all the carts as those in use are more a nuisance than anything else.

During the year under report only 100 unserviceable burners could be replaced by new ones with pine-moon chimneys. More funds are needed to improve the lighting of the town which is considered indispensably necessary and it is hoped the Finance Sub-Committee will see their way to allot more funds for lighting during the current year.

I have the honor to be

Sir,

Your most obedient Servant,

MD. ALLANUR KHAN,

Superintendent, City Sub-ward, No. VI.

Ajmer, 20th July 1903.

To

THE CHAIRMAN MUNICIPAL COMMITTEE, AJMER.

SIR,

During the year under report the Municipal Administration, as far as the Ward No. VII, Lakhan Kotri is concerned, has been satisfactory. The streets are clean. The inhabitants were all healthy. No accidental deaths occurred. Very few applications for opening new privies were made and all of them were according to rules. Number of Jharokas applied for was fewer in comparison with the other part of the city.

I specially request the Committee's attention to the roads and the lanes of Mohalla, Lakhan Kotri. As this Mohalla is just at the foot of the mountain, water spoils the path ways and roads. There are several excavations which are not only troublesome, but are sometimes dangerous. I therefore would suggest that stone khura may be built. The public latrines at Kumhar Bao and those of Silawat Mohalla are very badly in need of repairs. The Conservancy Sub-Committee has already proposed to repair them and I hope the General Committee will sanction the amount of Rs- 140-0-0 for the said purpose.

The water-stands in this Mohalla are very few and if one or two be added, it would add to the public convenience. Number of lanterns is not sufficient; some lanes require light and specially for the reason that the road is not in good condition.

As regards the general administration, I have to observe that the sanitary arrangements require special attention. The conservancy carts are not sufficient to meet the requirements and most of the carts in use are broken.

To safe-guard ourselves against plague and such other contagious diseases it is very essential that the sewage and the drainage systems be improved. The question of doing away with the Birat system may be opened and if necessary the Committee may take conservancy arrangements in their own hands and I don't think levy of conservancy tax would be felt hard by the public.

The city and suburban roads also deserve special attention.

I have the honor to be,

Sir,

Your most obedient Servant,

MITHAN LAL, *Vakil*,

Superintendent, Ward No. VII.

Ajmer, 30th April 1903.

To

THE CHAIRMAN, MUNICIPAL COMMITTEE, AJMER.

SIR,

With reference to your Office, No. 434, dated 15th April 1903, regarding the Administration Report for 1902-1903 of the Ajmer Municipality, I have the honor to remark as follows:—

1. That the works noted below are absolutely necessary in my ward and as far as possible they should be put in hand this year:—

(a) Construction of Pacca road dams on the Taragarh road in Inderkot.

(b) Stone pavement in the streets near Jhalra, Imambara and Mohalla Shorgaran and Silavatan Lakhankotri.

(c) Cleaning and repairs to Kela Bao, Katan Bao and Barbao etc., in Inderkot.

2. The sanitation of my ward is good, as it is properly looked after by the conservancy staff.

I have the honor to be,

Sir,

Your most obedient Servant,

(Sd.) SYED HAFIZ GHULAM MOHOMED,

Superintendent, Sub-ward No. VIII.

Ajmer, 25th May 1903.

REMARKS TO BE EMBODIED IN THE ANNUAL ADMINISTRATION REPORT
FOR THE OFFICIAL YEAR 1902-1903.

The streets, buildings and absence of any system of drainage on Pohkar Mochi's land in Chandbaori Mohalla need special attention. This point has been urged frequently, but nothing has been done so far, although the Committee, in combination with the landlord, could well afford to incur the necessary expenditure, considering that the land yields a pretty good income.

2. The street lamps in this locality are also insufficient and there is no suitable provision for the supply of water, the Chandbaori generally drying up in the hot weather and the hydrant being situate on a comparatively high level.

3. The *Gunda Nulla* in Kaisarganj is a standing disgrace. Foul water and even filth from the neighbouring houses is allowed to be discharged in it and it gives out a most abominable smell. The question of requiring house-owner to place proper receptacles underneath their drains was once taken up during the year under report. But it was put aside as it was thought that the receptacles would be washed away during the rains. The question deserves the Civil Surgeon's special attention.

4. The road leading from the Lallbazar to the Cavendishpura is generally out of repairs.

5. The Conservancy carts on their way to the Tramway station pass through the road spoken of in para. 4 above. This is a public nuisance as the road is very much frequented. The way for the carts could easily be diverted without any expense or trouble.

6. The *Serais* in Cavendishpura and Kaisarganj are all important, but none are provided with proper latrines or urinals. The owners should be asked to provide Baillie's patent latrines.

7. The grave-yard in Kaisarganj between the Usri Bazar and the late Masuda tank is in dangerous proximity to the Mohalla and should be closed.

8. There is a large number of ovens and kilas which exist in the very heart of the populated portion. They are a regular nuisance and this should be borne in mind in issuing licenses for the future.

9. The system of removing filth is, in some parts of Kaisarganj, not satisfactory. There is no system of Birat sweepers here and the number of conservancy carts plying quite inadequate to the increased population.

10. Many of the owners of sites that were sold several years ago but which were hitherto unbuilt upon are now building upon them ; and the number of houses has greatly increased. But the value of house property does not seem to have risen.

BANSI DHAR SHARMA,

Municipal Commissioner,

for Kaisarganj Ward.

Ajmer, 2nd May 1903.
